Technical Skills

Programming Languages:

Python, Java, JavaScript,
Kotlin, C#, C/C++

Web & Mobile Development:

HTML, CSS, React, Rest APIs,
Android development, RESTful
APIs

Framework & Tools: Android
Studio, Visual Studio (VS), .NET
(Windows Forms), Git, GitHub

Development Concepts:

API integration & Asynchronous
Programming, MVVM
Architecture,
UI/UX Design Principles,
Version Control & Branching

Education

Expected in 06/2026

Diploma: IT Programming
NSCC - Institute of Technology
Halifax, Nova Scotia

Languages

English:

Professional

Filipino:

Professional

Personal Summary

A Developer and IT Programming student with hands-on experience developing **Android, web, and desktop applications. Skilled in Java, Kotlin, React, Python, and REST API integration.** Passionate about building clean, user-focused applications and contributing to collaborative development teams.

Projects:

HFX RouteRunner - Android Transit Application (Android Studio | Kotlin | Java | Rest APIs | MVVM)

- Developed a mobile transit application displaying real-time bus locations and routes using public APIs.
- Implemented **MVVM** architecture to separate UI logic, data handling for maintainability.
- Designed an intuitive Android interface with interactive map integration and asynchronous API updates.

Anime Browser Web Application (React | JavaScript | REST APIs | GitHub)

- Built a React-based web application that fetches and displays live anime data using the **Jikan REST API**.
- Implemented search functionality, top-anime listings, and detailed content views to improve user experience.
- Used **Axios** for API requests and **React Hooks (useState, useEffect)** for efficient state management and rendering.

BouncyBall Simulation - Desktop Application (C# | .NET | Windows Forms | Visual Studio)

- Developed an interactive desktop simulation featuring animated shapes with randomized movement and collision behavior.
- Implemented **custom collision detection logic** for real-time object interactions.
- Applied object-oriented programming principles and event-driven for frame updates and smooth animations.

Volunteer Experience

Multicultural Club, Dartmouth High School - Club Volunteer | Dartmouth, Canada | 09/2022 - 06/2024

- Assisted in organizing cultural events and collaborated with diverse student teams

Faith City Tabernacle - FCC Camera Volunteer | Halifax, Canada | 06/2023 – 12/2023

- Operated camera equipment to film and improved high-quality video content for live services and events
